Total assets for the fiscal year were registered at P826M, a 5% increase from last year's P785M.

Cash and cash equivalents increased by P91M or 173% as compared with P53M last year. The increase was due to collections from past sale of goods and services which are yet to be disbursed following the change in the organization of the company during the last quarter of the year.

Trade and other receivables decreased by 17% or P21M due to a drop in credit sales made during the fiscal year as compared to last year leading to a decrease in accounts receivable recorded.

Investment in subsidiaries were fully impaired this fiscal year due to continuous losses incurred and the cessation of operation.

Net deferred tax assets decreased by 9% or P2M as compared with last year. This represents the temporary differences arising from the different rules in recognizing asset, income and expense between tax rules and accounting rules.

The increase in Other Noncurrent assets as of Aril 30, 2024 represents reclassification of certain accounts from current assets especially the Computer Software and Treasury bonds.

Trade and other payables increased by 46% from P57M to P82M this fiscal year. The increase was due to trade purchases both local and foreign which are not yet settled as of the end of fiscal year.

Lease liabilities non-current decreased from P24M this year against P18M last fiscal year due to amortization of leases during the year. The company is leasing its Bulacan warehouse and manufacturing plant in Carmelray for a lease term of four years and ten years respectively.
